MEMORANDIN FOR: Executive Secretary, Utilization Advisory Board

SUBJECT : List of Talker Information Secessary for Sanitization

1. In response to your mesorendum of 32 January, subject as above, I am listing allow a series of installations or substantive problems for which we would like to have the TAIMWI data removed from the TAIMWI system. Listed under each installation is a brief description of the substance which we would like to have covered in a sanitized report. Although not listed in order of priority, we recommend those installations listed in Group I receive sanitization treatment prior to those listed in Group II.
